Webinar on BS6 Technology in commercial vehicles

by SAE Collegiate club of MAIT in association with NICHAT Human Resources Solutions

A webinar on BS6 technology in commercial vehicles was organised by **SAE collegiate club of MAIT** in association with **NICHAT Human Resources Solution**.

The two hours webinar was held on 17 September at 12 noon .The Speaker was **Mr. Anurag Saxena , (Divisional manager, service training centre Ashok Leyland LTD, Chennai)**. He gave the presentation to a total of 200 MAE students.

The Webinar was intended to explain students, the fundamentals of BS6 technology and its effects on consumer and nature, changes made in engine and fuel in accordance with BS6 technology, methodology used to implement BS6 technology in India and how it will be implemented in commercial vehicles also how it will affect the Automobile Industry.

The students found the workshop to be very helpful and it was a wonderful experience for us. We look forward to attend similar educational webinars conducted by **SAE collegiate club of MAIT**.

Mr. R.C. Saini
