

Poster Presentation on January 31st, 2024

The Mechanical Engineering (ME) and Mechanical and Automation Engineering (MAE) departments of Maharaja Agrasen Institute of Technology (MAIT), Delhi, organized a Poster Presentation event on January 31, 2024. The event was conducted in collaboration with the Institution's Innovation Council (IIC). The primary objective of the event was to provide a platform for students to showcase their research, innovations, and projects in the fields of Mechanical Engineering and Mechanical and Automation Engineering. It aimed to foster creativity, encourage scientific inquiry, and promote a culture of innovation among the students. The collaboration with the Institution's Innovation Council (IIC) added an extra dimension to the event. IIC played a pivotal role in guiding and mentoring the participants, providing valuable insights into the practical applications and market relevance of their projects. This collaboration reinforced the importance of bridging academic knowledge with real-world applications. The event featured a diverse range of topics, covering various aspects of Mechanical Engineering and Mechanical and Automation Engineering. Participants presented posters on topics such as robotics, thermal engineering, materials science, automation, and renewable energy. Outstanding presentations were recognized and awarded to motivate students further. Prizes were given for categories such as Best Poster, Most Innovative Project, and Best Presentation Skills.

The Poster Presentation organized by the ME and MAE departments of MAIT, Delhi, in collaboration with IIC, proved to be a resounding success. The event not only showcased the ingenuity and research capabilities of the students but also emphasized the importance of collaboration between academic institutions and industry bodies. Such initiatives contribute significantly to the holistic development of students and promote a culture of innovation within the academic community.
